

Great Lakes Binational Toxic Strategy

1998 - PCB Outreach - Typical Agenda

- | | | |
|-----------------|--|---------------------|
| • 9:30 - 10:00 | Registration and PCB contractor displays | |
| • 10:00 - 10:10 | Introduction | MOE Staff |
| • 10:10 - 10:30 | Environment Canada Regulations | EC Staff |
| • 10:30 - 11:00 | Environment Ontario Regulations | MOE Staff |
| • 11:00 - 11:30 | PCB Disposal Options | MOE Staff |
| • 11:30 - 12:00 | Success Stories | Various
Speakers |
| • 12:00 - 1:00 | Lunch | |
| • 1:00 - 2:00 | Group Discussions | All present |

Great Lakes Binational Toxic Strategy

1998 - PCB Outreach - Waste Quantities

MOE - Waste Quantities

- | | |
|-----------------------|----------------|
| • Southeastern Region | 1,323. tonnes |
| • West Central Region | 14,295. tonnes |
| • Southwestern Region | 65,883. tonnes |

EC In - Service Quantities

- | | |
|------------------|---------------|
| • Ontario Region | 3,450. tonnes |
|------------------|---------------|

Total Amount	85,951. tonnes
--------------	----------------

Great Lakes Binational Toxic Strategy

1998 - PCB OUTREACH - SPEAKERS

- 11 Speakers attended the 6 meetings
- Partnership success stories
- How to undertake an audit of their wastes
- How to prepare their waste before shipment
- Cost savings through joint efforts
- What to avoid(delays do to non - interested partners)

Great Lakes Binational Toxic Strategy

1998 - PCB OUTREACH-COMPANIES

- 30 Companies listed in brochure
- 14 Companies participated in meetings
- All certified companies with knowledge in PCBs
- Provide direct link to PCB Owners
- Sponsored lunches at meetings
- “Feed-back” letter sent to companies after meetings for input to improve future PCB projects

Great Lakes Binational Toxic Strategy

1998 - PCB OUTREACH - RECOMMENDATIONS

- Follow up with the small quantity owners in nine month's time to assess the progress made towards the decommissioning/destruction of their PCBs.
- Circulate the list of the PCB owners who attended these meetings to those who wish to pursue the networking option for the consolidation\destruction of their PCBs.

Great Lakes Binational Toxic Strategy

1998 - PCB OUTREACH - DISCUSSION

- High cost to preplace active equipment
- Limited destruction options during 1997
- How to decommission their former PCB sites
- Interest in networking with other PCB owners

Great Lakes Binational Toxic Strategy

PCB OUTREACH - BACKGROUND

Small Quantity Owner Outreach - 1996 to Present

- 7 workshops in Toronto, 1 in Thunder Bay
- Attendance by over 140 PCB owners
- Final report April 1997, follow-up fall 1997
- Workshops in six other Ontario Cities in spring 1998
- Follow-up survey planned for January, 1999

Great Lakes Binational Toxic Strategy

ENVIRONMENT CANADA

SMALL QUANTITY PCB OUTREACH PROGRAM - 1998

Great Lakes Binational Toxic Strategy

- **1997 Follow -Up Survey - Toronto**
 - Conducted a year after 1996 Outreach Program
 - Questionnaires mailed to 270 PCB owners
 - 80 participants returned information
 - Over 50 % indicated they had destroyed PCBs

Great Lakes Binational Toxic Strategy

1998 PCB Outreach Program **Southern Ontario**

- 646 PCB Owners Mailed PCB Brochure
- 217 Participated in the six Meetings
- 14 PCB Companies Attended in Meetings
- EC and MOE Staff gave Presentations
